Introduction

Task 2.2.1 “Training of the University administration Services for Accessible Tertiary Education” includes training of the participating partner countries’ HEIs from the programme countries’ HEIs. Administrators and managers are the groups to be trained to provide accessible Higher Education (HE) services for Students with Disabilities (SwD) and serve their needs. According to the plan of Task 2.2.1, trainers from the three programme countries’ consortium partners (P11: University of Athens, P12: Masaryk University, P13: University of Limerick) will come to Albania, Kosovo and Montenegro for the implementation of the trainings. To ensure that each training addresses the precise needs of SwD in the partner countries, besides global needs for SwD, particular cultural settings must be covered during each training. Thus, in most of the trainings, a supplementary trainer will be provided by the partner NGOs advocating the rights of People with Disabilities. Finally, special care has been planned to be given so that administrative staff from the ranks of PwD be given priority in the selection of trainees, in recognition that their presence and inputs are indispensable for the project’s inclusiveness.

This document constitutes the Report of the training implemented by the National and Kapodistrian University of Athens (NKUA) on 22, 23 and 24 February 2022 at Podgorica, Montenegro, and hosted by the Donja Gorica University. Some trainers and participants were connected remotely (due to the COVID-19 pandemic) using the ZOOM teleconference platform. The training material used in this training is included as a separate delivery D2.3.4.A with 130 slides [1].

Training Program

The detailed program for the 3-days training is given in Annex 1 of this report.

Participants

In total there were 32 participants (20 attendees and 12 trainers). Their names, along with their titles, emails and signatures (for those with physical presence) are given per partner in Annex 2. Photos from the training is provided in Annexe 3.
